SKILLS

- Object-Oriented Programming (OOP)
- Data Structures & Algorithms
- RESTful API Design
- Backend Development
- Full Stack Development
- MVC Architecture
- Development Lifecycle (SDLC)
- Debugging & Troubleshooting
- Code Optimization
- Database Design & Management
- Relational Database Concepts
- API Integration
- Version Control Principles
- Unit Testing Concepts
- Agile Methodologies

EDUCATION

Fitchburg State University

Master of Science in Computer Science

| GPA: 3.71 **2023**

Bachelor of Science in Computer

Information Systems | Magna Cum Laud

2020

PROFILE SUMMARY

Aspiring backend developer with a Master's in Computer Science and hands-on experience in Spring Boot and ASP.NET Core. Skilled in developing REST APIs, managing relational databases, and applying object-oriented design principles. Combines technical foundation with professional experience in troubleshooting complex systems, enabling efficient debugging and scalable solution development. Committed to continuous learning, delivering reliable solutions, and contributing to team success.

TECHNICAL SKILLS

- Languages:** Java, C#
- Frameworks:** Spring Boot, ASP.NET Core
- Web:** REST APIs, HTML, CSS, JavaScript (basic)
- Databases:** SQL (PostgreSQL, SQL Server)
- Tools:** Git, GitHub, Visual Studio, IntelliJ
- Concepts:** Object-Oriented Programming, MVC Architecture, Debugging, Agile Fundamentals

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (Contract – Deluxe Corporation)

IT Systems Engineer

Feb 2023 – Present

- Supported enterprise systems, resolving software and infrastructure issues across multiple production environments.
- Assisted in automation and process improvements to streamline repetitive technical tasks.
- Provided technical guidance to internal stakeholders on system performance and issue resolution.
- Reduced security vulnerabilities from 96,000+ to ~2,500 through structured remediation efforts.
- Supported IT operations for a division contributing ~45% of company revenue, ensuring minimal downtime.

Deluxe Corporation

Technology Solutions & Support Analyst II

Oct 2021 – Jan 2023

- Diagnosed and resolved software, hardware, and system issues in a high-volume support environment.
- Partnered with internal teams to implement technical solutions, improving system workflows.
- Assisted with system upgrades, deployments, and environment maintenance.
- Strengthened debugging and root cause analysis skills across multiple platforms.
- Resolved 20–30+ technical tickets weekly, consistently meeting internal SLA response and resolution targets.

Aging Services of North Central Massachusetts

Technology Support Specialist

May 2020 – Oct 2021

- Provided technical support for ~100 employees across hardware, software, and system access issues.
- Performed system troubleshooting and routine maintenance to ensure consistent performance.
- Imaged and deployed workstations, supporting onboarding and operational readiness.
- Supported 100+ end users, maintaining stable day-to-day operations with minimal system downtime.
- Deployed and configured 50+ workstations, improving onboarding efficiency and reducing setup delays.
